

The artist

Can you create a graffiti image of your name? Your letters should be bold, colourful and all be of a similar design. I have attached a few examples.

The historian

Graffiti has been around much longer than we think. Can you research the history of graffiti?

Think about the following questions:

Where did it begin?

How has it changed?

Which artist use graffiti in modern day?

The mathematician

Some graffiti art is designed using 2D and 3D shapes. Can you design a maths themed piece of graffiti art?

The biographer

As part of our graffiti work, can you research a graffiti artist and write a biography about them?

Think about:

Birthplace and early life

How they got into graffiti art

Any famous works completed

A minute of mindfulness

Take a moment to think about your interests, hobbies etc.

Can you design a black and white comic graffiti image which includes all of these things?
