

Year 2 - Insects

The Mathematician

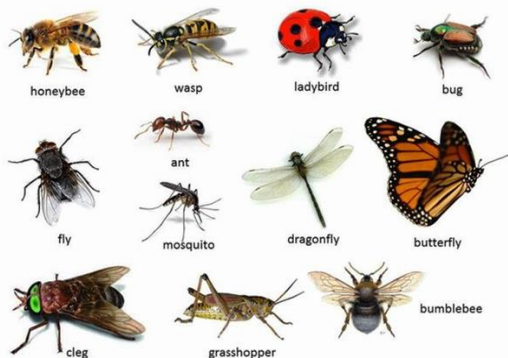

1. Go to your local green area or garden and start exploring for insects, make a tally chart of your findings.
2. Draw a bar chart of your findings in your tally chart.

The Builder

1. Can you research and design a bug house, labelling what parts of the house are for what insect and what material you would use?
2. Can you build your own insects house, either using junk modelling or materials around outside using sticks, mud and grass?

The Writer

1. Can you make a fact file of 10 facts on one insect? Where do they live? What do they eat?
2. Can you research the life cycle of a butterfly and make a leaflet to show this?
3. Have you read the story of the hungry caterpillar? We would like you to write your own short story about the insect in your fact file.

The artist

1. Can you draw your favourite insect?
2. Design your own butterfly remembers their wings must be symmetrical.

The Geographer

1. Choose 3 insects and explore the habitat they live in, describe what different about their habitat and what is similar.
