

Perry Hall News!

Year 1

Thursday 11th June

A Place to Grow

Welcome to our fifth year group newsletter.

We hope you are all safe and well!

Within this newsletter, we will be celebrating World Oceans Day. We can't wait to see your outcomes of work from the tasks set for you to enjoy.

For those children in **Year 1 and Year 6** who are planning to re-join us in school on Monday 15th June, we can't wait to see you! Please ensure that you have read all of the information that has been emailed out to you and ensure that you have returned your home school agreement to secure a place for your child in school. Without doing this, your child will not be able to return to school.

Perry Hall has got talent! Eva B from Year 1 and her brother Rian B from Year 4 were selected for the 'Drum from home' Argos advert which was shown in the ad break during last Saturday's episode of Britain's Got Talent.

The advert showed lots of people drumming along to a song in their homes. Here you can see a photo of Eva and Rian.

We would like to wish them both a massive well done!

Message from your Year Group Staff

Hello to all of our Year 1 children and your grown-ups. We continue to be blown away by your commitment to your home learning and the wonderful work you are producing and sharing with us via our year group email. We are also so proud to hear how hard lots of you are working on extra things too, like growing plants and learning new skills such as riding your bikes without stabilisers and baking. We have been very busy putting together a new home learning grid for you all with lots more fun activities on, we hope you will enjoy doing them. We are still missing you all very much.

Love from all your Year 1 teachers.

Science- Update from Mrs Holdcroft

Thank you again to everyone who sent in their answer to our last newsletter's enquiry question. This week we have another new challenge for you! Again, this is differentiated for younger children (KS1) and older children (KS2), allowing siblings to work together on the same activity. Keep sending in your findings - we love seeing your outcomes of work!

Science: Skill Focus - Fair Test

Question

Which material makes the strongest boat?

Carry out a fair test to find out which material makes the strongest boat. You could use paper, card, tin foil, or any other material you find. Fold material to create a boat - it doesn't have to look like a boat! Carefully place your boat in a large bowl of water or sink. How many coins / legos / marbles can you put in your boat before it sinks? Repeat with a different material.

Question Predict Observe Record Analyse Report

Younger Children	Older Children
Draw your boats and write how many objects you could fit in each boat before it sank.	Create a report of your experiment. What was your hypothesis? Record your results in a table. Analyse your results - Why do you think the boats sank/floated? How could you improve your boats? Was it a fair test?
Challenge	About this type of Science
Take part in the Great Science Share on Tuesday 16th June. https://www.greatscienceshare.org/getinvolved2020#greatscienceshare Share your science or watch others carry out experiments online. Along with opportunities to ask real scientists questions.	<i>Depending on the amount of water displaced (push out the way) by the boat, will depend on how heavy the boat can be. This is how there can be huge shipping containers that are longer than 4 football fields!</i> <i>Marine Engineers design and build things that work in water. That could include boats, submarines or making electricity using hydroelectric dams.</i>

E-Safety

During the school closure, we know that children have a greater exposure to the online world. It is really important that they keep themselves safe. Children and parents can take part in a range of activities at:

<https://www.thinkuknow.co.uk/>

If you have any concerns regarding your child's safety online, and you believe they are being targeted, you can report this through CEOP- the online police.

<https://www.ceop.police.uk/safety-centre/>

Purple Mash

Continue to look out for the tasks continually being assigned to your children for them to access via Purple Mash. Access to Purple Mash can be gained by visiting <https://www.purplemash.com/sch/perryhall>.

Any problems with logins or passwords then please contact us.

Isla has also been very busy at home. She has been working hard and has made this beautiful butterfly.

Jack has been learning how to make his plant grow strong and healthy.

He has also enjoyed going for lovely walks in the sunshine.

Don't forget to send in your photos and any work you want to share, check or get marked.

Make sure you email your Year group on ...

ph.y?homelearning@perryhallmat.co.uk

Colman Avenue, Wolverhampton, WV11 3RT. Telephone number: 01902558538

School website: www.perryhall.co.uk

Email address: perryhallprimaryschool@wolverhampton.gov.uk

Executive Headteacher: Miss R Kohli

Chloe and her sister have been having fun on their walks.

Luke in 1DL has been very busy baking. Mmmm yummy! Do you deliver?

World Ocean Day– 8th June 2020

Earlier this week it was World Ocean Day. On World Oceans Day, people around the World celebrate and honour the ocean, which connects us all. The aim of this day is for people to work together to start creating a better future and protect our oceans.

This year's theme is 'Innovation for a Sustainable Ocean'.

Please share the linked PowerPoint with your child by clicking on the 'World Oceans Day' photo below. Then consider the questions on the last page of the PowerPoint:

What Can We Do?

- How can you reduce your use of plastic or recycle what you do use?
- How could you use less energy to help reduce global warming?

Think about how you can do this at home and in school.

World Oceans Day Task

Egg box sea turtles

You will need:

An empty egg box (for the body)

Green paint (for the body)

Green pipe cleaners OR brown paper (for the legs and face)

Googly eyes and glue to stick them on OR a black marker to draw eyes on

A green pom-pom for the face

Cut out one section of the egg box and paint it green. If you are using pipe cleaners, cut 4 short lengths of around 3cm, secure them to the inside of the egg box with sellotape. If you are using paper for the legs, cut it out in the shape shown in the picture above and glue the egg box onto the middle. Stick on or draw your turtles face.

Keeping the oceans clean is very important to sea turtles. They are vulnerable to pollution at all stages of their life, from eggs to hatchlings to adults. Over 1000 sea turtles every year are sadly killed from plastic waste in the oceans and on the beaches. Some sea turtles eat plastic bags which are in the ocean because they look like jellyfish.

Alex has been learning how to take care of his new kitten Bailey.

Luke has been working very hard at home. Here is Luke fishing for tadpoles. He has been learning all about how they grow and change to become frogs.
