Monday 29th April 2024

Dear Parents and Carers,

We hope this letter finds you well. As part of our Science topic 'Light and Forces', we have organised an interactive Science Dome workshop for all Year 3 pupils.

The workshop will take place on **Thursday 20th June 2024** and the purpose of this visit is to enhance our Year 3 pupils' scientific understanding and to build on prior knowledge of science, particularly forces and light. The science dome will provide our pupils with an opportunity to get hands-on with light and colour. The children will explore what light is, where it comes from, how it travels and how we see. We hope this experience will both excite and engage our pupils. The day will be scheduled around children's normal break and lunchtimes and we ask that the children come to school in the uniforms as normal.

The cost of this experience is **£11.00** per child, to be paid no later than Monday 20th May 2024 via parent pay. We also ask that you provide consent for you child to take part in this experience.

Unfortunately, the school is unable to subsidise the cost of this experience and we may be required to cancel if we are unable to cover these costs. If this were to happen, we would refund any payments to those that have already paid. If you have any questions regarding the visit, please speak to your child's class teacher.

Thank you for your continued support.

Yours sincerely,

Mr L Fellows
Headteacher

Year 3 Science Dome

Name: Class:

(Please circle) **I do / do not** give permission for my child to take part in the science dome on 20.06.24

(Please circle) **I do/do not** give permission for my child to be photographed during the workshop and the photos to be used on the school website and on the school newsletter.
