

Thursday 12th March 2026

Dear Parents and Carers,

As part of our continued work to support the Phase 2 expansion of our Year 3 and Year 5 bulge intake, we would like to share an update and some information about upcoming building works that will be taking place at the school.

Intake Update

Currently, we have welcomed five children into Year 3, who are siblings of existing pupils, have attended our Nursery or live in the local area. In Year 5, we have welcomed two children, one who is a sibling and another who lives close to Perry Hall Primary School.

Building Works

The construction work is scheduled to begin during the Easter holidays and is expected to take approximately 26 weeks, with completion planned for 9 October 2026.

The project will provide additional learning spaces to support our growing school community. This will include the creation of a new classroom for our most vulnerable pupils, which will be built next to the current Seedlings classroom, as well as two new learning bases on the Key Stage 2 corridor.

We would like to reassure parents and carers that the building works have been carefully planned to minimise disruption to school life. The construction will take place outside of the main school building and work will not enter the school itself during the majority of the project. Only during the final stages of the build will walls be carefully opened to connect the new areas to the existing building.

The safety and wellbeing of our pupils remain our highest priority. All contractors working on site will hold DBS clearance and have been clearly instructed not to engage in conversation with pupils. In addition, strict safety procedures and secure site boundaries will be in place throughout the project.

We have also worked closely with contractors to minimise disruption during key periods in the school calendar. For example, as part of the pre-contract planning process, the contractor has been specifically instructed to avoid any construction work, while Year 6 pupils are sitting their SATs in May 2026.

Access to the school site for parents and carers will remain the same during the works. However, there will be a change to the Year 3 collection point. A separate letter will be sent directly to Year 3 parents and carers with full details of this change in due course.

We know that building projects can be interesting for children and families and we will aim to share updates throughout the project so that parents and carers can see the exciting progress being made.

We appreciate your continued support and understanding while these improvements are taking place. The additional spaces will greatly benefit our pupils and help us provide the best possible learning environment for everyone.

If you have any questions or would like any further information, please do not hesitate to contact the school.

Thank you for your continued support.

Yours sincerely,

L. Fellows
Headteacher
